# Co-Curricular Education

This subcategory seeks to recognize institutions that provide their students with sustainability learning experiences outside the formal curriculum. Engaging in sustainability issues through co-curricular activities allows students to deepen and apply their understandings of sustainability principles. Institution-sponsored co-curricular sustainability offerings, often coordinated by student affairs offices, help integrate sustainability into the campus culture and set a positive tone for the institution.

Student Sustainability Educators Program

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution coordinates an ongoing peer-to-peer sustainability outreach and education program for degree-seeking students. The institution:

- Selects or appoints students to serve as educators and formally designates the students as educators,
- Provides formal training to the educators in how to conduct outreach, and
- Offers faculty or staff and/or financial support to the program.

This credit focuses on programs for degree-seeking students enrolled in a for-credit program. Continuing education and/or non-credit students are excluded from this credit.

Student clubs or groups, which are covered by Co-Curricular Education Tier Two Credit 1, are not eligible for this credit unless the group meets the criteria outlined above.

"---" indicates that no data was submitted for this field

Total number of degree-seeking students enrolled at the institution:
967

Student Sustainability Outreach Campaign

Criteria

Institution holds at least one sustainability-related outreach campaign directed at students. The campaign yields measurable, positive results in advancing sustainability. The sustainability-related outreach campaign may be conducted by the institution, a student organization, or students in a course.

To measure if the campaign yields measurable, positive results, institutions should compare pre-campaign performance to performance during or after the campaign.

The campaign could take the form of a competition (such as a residence hall conservation competition), or a collective challenge (such as a campus-wide drive to achieve a specific sustainability target).

The campaign may focus on one or more sustainability issues, but educating students is a primary feature of the campaign.

The campaign may reach additional campus members (faculty, staff, visitors, etc.) as long as students are one of the audiences of the campaigns.

The following impacts are not sufficient for this credit:

- Increased awareness
- Additional members of a mailing list or group

"---" indicates that no data was submitted for this field

Does the institution hold a campaign that meets the criteria for this credit?:

No

The name of the campaign(s):

---

A brief description of the campaign(s):

---

A brief description of the measured positive impact(s) of the campaign(s):

---
The website URL where information about the sustainability outreach campaign(s) is available: ---
Sustainability in New Student Orientation

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution includes sustainability prominently in its new student orientation activities and programming. Sustainability activities and programming are made available to all new students and are intended to educate about the principles and practices of sustainability.

Because orientation activities vary from one institution to another, prominent inclusion of sustainability may not take the same form on each campus. When reporting for this credit, each institution will determine what prominent inclusion of sustainability means given its particular context.

As this credit is intended to measure sustainability being infused throughout the institution, program or discipline-level orientations are not included in this credit.

"---" indicates that no data was submitted for this field

Does the institution include sustainability prominently in new student orientation? :

Yes

A brief description of how sustainability is included prominently in new student orientation :

New students learn about the university's whole-food, responsibly sourced dining commons; carpooling and vanpooling incentives; recycling and water-saving efforts; and its commitment to sustainability.

The website URL where information about sustainability in new student orientation is available :

---
Sustainability Outreach and Publications

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution produces outreach materials and/or publications that foster sustainability learning and knowledge. The publications and outreach materials may include the following:

- A central sustainability website that consolidates information about the institution’s sustainability efforts
- A sustainability newsletter
- A vehicle to publish and disseminate student research on sustainability
- Building signage that highlights green building features
- Food service area signage and/or brochures that include information about sustainable food systems
- Signage on the grounds about sustainable groundskeeping strategies employed
- A sustainability walking map or tour
- A guide for commuters about how to use alternative methods of transportation
- A guide for green living and incorporating sustainability into the residential experience
- Regular coverage of sustainability in the main student newspaper, either through a regular column or a reporter assigned to the sustainability beat
- Other

"---" indicates that no data was submitted for this field

Does the institution have a central sustainability website that consolidates information about the institution's sustainability efforts? :
No

A brief description of the central sustainability website that consolidates information about the institution's sustainability efforts :
---

The website URL for the central sustainability website that consolidates information about the institution's sustainability efforts :
---

Does the institution have a sustainability newsletter? :
No
A brief description of the sustainability newsletter:

---

The website URL for the sustainability newsletter:

---

Does the institution have a vehicle to publish and disseminate student research on sustainability?:

No

A brief description of the vehicle to publish and disseminate student research on sustainability:

---

The website URL for the vehicle to publish and disseminate student research on sustainability:

---

Does the institution have building signage that highlights green building features?:

Yes

A brief description of building signage that highlights green building features:

Signage explains and highlights our all-compostable dining napkins, dishware, and utensils; our campus-wide composting and recycling programs; and our water-less urinals and low-flow faucets.

The website URL for building signage that highlights green building features:

---

Does the institution have food service area signage and/or brochures that include information about sustainable food systems?:

Yes

A brief description of food service area signage and/or brochures that include information about sustainable food systems:

Signage explains and highlights our all-compostable dining napkins, dishware, and utensils. The whole-food (preservative free) food in our dining commons features a full ingredient list by each dish.

The website URL for food service area signage and/or brochures that include information about sustainable food systems:

http://www.bastyr.edu/student-life/current-students/dining-commons#About

Does the institution have signage on the grounds about sustainable grounds-keeping strategies employed?:

---
A brief description of signage on the grounds about sustainable grounds-keeping strategies employed:
---

The website URL for signage on the grounds about sustainable grounds-keeping strategies employed:
---

Does the institution have a sustainability walking map or tour?:
Yes

A brief description of the sustainability walking map or tour:
Signage invites visitors to explore our organic medicinal and food garden. Campus admissions tours highlight sustainability features.

The website URL of the sustainability walking map or tour:
http://www.bastyr.edu/admissions/request-information/visit-campus

Does the institution have a guide for commuters about how to use alternative methods of transportation?:
Yes

A brief description of the guide for commuters about how to use alternative methods of transportation:
Guide includes bus, shuttle van, and carpool information.

The website URL for the guide for commuters about how to use alternative methods of transportation:
http://www.bastyr.edu/about/kenmore-campus/map-directions

Does the institution have a guide for green living and incorporating sustainability into the residential experience?:
Yes

A brief description of the guide for green living and incorporating sustainability into the residential experience:
All campus residences are LEED Platinum certified buildings, in which students are encouraged by building design to conserve energy and water.

The website URL for the guide for green living and incorporating sustainability into the residential experience:
---

Does the institution have regular coverage of sustainability in the main student newspaper (either through a regular column or a reporter assigned to the sustainability beat?):
No
A brief description of regular coverage of sustainability in the main student newspaper, either through a regular column or a reporter assigned to the sustainability beat:

No student newspaper.

The website URL for regular coverage of sustainability in the main student newspaper, either through a regular column or a reporter assigned to the sustainability beat:

---

Does the institution produce another sustainability publication or outreach material not covered above? (1st material):

Yes

A brief description of this material:

Natural Directors and Bastyr News, our recruiting e-newsletters, feature sustainability-related topics.

The website URL for this material:

http://www.bastyr.edu/newsletters

---

The website URL where information about student group(s) is available :
---
Does the institution have an on-campus garden where students are able to gain organic farming and/or gardening experience?:

Yes

A brief description of the garden:

The Bastyr University Medicinal Herb Garden plays a central role in the education of our students. Botanical medicine students study and cultivate a variety of medicinal plants throughout their life cycle. Many of these plants are harvested at their seasonal peak for creating medicinal tinctures and salves. Nutrition classes use the cultivated culinary herbs and organic vegetables in the University's whole-food kitchen lab.

During harvest season, Bastyr's renowned whole-food dining commons features fresh produce from the Bastyr garden. The garden is designed, cultivated and managed by students under the guidance of the garden manager, a 2005 graduate of Bastyr's herbal sciences program.

The website URL where information about the garden is available:

---
This subcategory seeks to recognize institutions that have formal education programs and courses that address sustainability. One of the primary functions of colleges and universities is to educate students. By training and educating future leaders, scholars, workers, and professionals, higher education institutions are uniquely positioned to prepare students to understand and address sustainability challenges. Institutions that offer courses covering sustainability issues help equip their students to lead society to a sustainable future.

Criteria

Part 1

Institution has developed a definition of sustainability in the curriculum. The definition was developed by a committee comprised of at least three faculty members who teach courses in different departments. The committee may include students, staff, and other stakeholders as well. The definition does not have to be formally adopted.

In order to report on other STARS Curriculum credits, the definition of sustainability in the curriculum should distinguish between courses that focus or concentrate on the concept of sustainability throughout the course and courses that relate to an aspect of sustainability or include sustainability as part of the course.

- **Sustainability-focused courses** concentrate on the concept of sustainability, including its social, economic, and environmental dimensions, or examine an issue or topic using sustainability as a lens.
- **Sustainability-related courses** incorporate sustainability as a distinct course component or module or concentrate on a single sustainability principle or issue.

Part 2

Institution has identified its sustainability-focused and sustainability-related course offerings. A course is either sustainability-focused or sustainability-related; no course should be identified as both sustainability-focused and sustainability-related. Each institution is free to choose a methodology to identify sustainability courses that is most appropriate given its unique circumstances. Asking faculty or departments to self-identify sustainability courses using the definition in Part 1 or looking at the stated learning outcomes and course objectives associated with each course may provide a richer view of sustainability course offerings than simply reviewing course descriptions, but it is not required.

Part 3

Institution makes its sustainability course inventory publicly available online. The identification can be incorporated into the course catalog or posted as a stand-alone document.

"---" indicates that no data was submitted for this field

Has the institution developed a definition of sustainability in the curriculum? :

No

A copy of the institution's definition of sustainability in the curriculum? :
Has the institution identified its sustainability-focused and sustainability-related course offerings? : Yes

A brief description of the methodology the institution followed to complete the inventory :
All health classes emphasize a holistic approach to human and environmental health.

Does the institution make its sustainability course inventory publicly available online? : Yes

Undergraduate Program in Sustainability

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution offers at least one sustainability-focused undergraduate major, degree program, or equivalent.

The degree program does not have to include sustainability in its name to count for this credit. Environmental Studies programs, for example, count as long as the program covers the social, economic, and environmental dimensions of sustainability. A program that focuses exclusively on environmental or social issues, however, would not be sufficient to earn this credit.

Concentrations within a major (e.g. a concentration on sustainable business within the business major) do not count for this credit.

"---" indicates that no data was submitted for this field

Sustainability Immersive Experience

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution offers at least one immersive, sustainability-focused educational study program. The program(s) may take place off-campus, overseas, or on-campus.

For this credit, the program meets one or both of the following criteria:

- it concentrates on sustainability, including its social, economic, and environmental dimensions or
- it examines an issue or topic using sustainability as a lens.

Immersive programs offered in partnership with outside entities may count for this credit. Programs offered exclusively by outside entities do not count for this credit.

"---" indicates that no data was submitted for this field

Does the institution offer a program that meets the criteria for this credit? : Yes

A brief description of the sustainability-focused immersive experience(s) offered by the institution :

Botanical Studies in Costa Rica: Over 10 days, students explore botanical medicine in jungle canopies, rivers, mountains and ocean beaches. The group visits herbal farms, preservation gardens, jungle wilderness and sustainable communities. Students meet with long-time folk herbalists and world-renowned modern permaculturists, learning about herbal medicine, Latin American culture and holistic land stewardship.

Cascade Herb Experience: Students spend a weekend learning to identify native plants in the Cascade mountains near Twisp, Washington. They also learn from a local herbal wildcrafter how to harvest native medicinal plants sustainably and how to make medicine from them.

Herbal Medicine Throughout Oregon: Students spend seven days camping, hiking and touring herb farms and herbal production companies. The focus is on developing a deeper understanding of herbal medicine through the Oregon herbal community. Students car pool to the cities of Williams, Eugene and Sandy and set up base camps, then head out to day trips to woods, fields, farms and production facilities.

The website URL where information about the immersive experience is available :

---
Sustainability Literacy Assessment

Criteria

Part 1

Institution conducts an assessment of the sustainability literacy of its students. The sustainability literacy assessment focuses on knowledge of sustainability topics, not values or beliefs.

Part 2

Institution conducts a follow-up assessment of the same cohort group using the same instrument.

"---" indicates that no data was submitted for this field

Has the institution conducted a sustainability literacy assessment? :
No

Sustainability Research Identification

Criteria

Part 1
Institution has developed a definition of sustainability research. The definition was developed by a committee comprised of at least three faculty members from different departments who conduct research. The committee may include students, staff, and other stakeholders as well. The definition does not have to be formally adopted.

Part 2
Institution has identified its sustainability research activities and initiatives. This research inventory should include all research centers, laboratories, departments, and faculty members whose research focuses on or is related to sustainability.

Part 3
Institution makes its sustainability research inventory publicly available online.

"---" indicates that no data was submitted for this field

Has the institution developed a definition of sustainability research? :
No

A copy of the institution's definition of sustainability research :
---

Has the institution identified its sustainability research activities and initiatives? :
No

A brief description of the methodology the institution followed to complete the inventory :
---

Does the institution make its sustainability research inventory publicly available online? :
No

The website URL where the sustainability research inventory is posted (required if claiming Part 3 of the credit) :
---
Faculty Engaged in Sustainability Research

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution’s faculty members conduct research on sustainability topics.

Any level of sustainability research by a faculty member is sufficient to be included for this credit. In other words, a faculty member who conducts both sustainability research and other research may be included.

"---" indicates that no data was submitted for this field

The number of faculty members engaged in sustainability research:

10

The total number of faculty members engaged in research:

30

Names and department affiliations of faculty engaged in sustainability research:

Ryan Bradley, Naturopathic Medicine
Erica Oberg, Naturopathic Medicine
Jason Allen, Naturopathic Medicine
All nutrition and botanical medicine researchers

The website URL where the sustainability research inventory that includes the names and department affiliations of faculty engaged in sustainability research is posted:

---

A copy of the sustainability research inventory that includes the names and department affiliations of faculty engaged in sustainability research:

---

Brief descriptions of up to 4 recent notable accomplishments by faculty engaged in sustainability research, including names and department affiliations:

Bastyr is getting a campus sauna for a first-of-its-kind study to find out how heat treatments can help cleanse the body of toxic chemicals.
The website URL where information about sustainability research is available:
http://www.bastyr.edu/blogs/participate-study
Departments Engaged in Sustainability Research

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution's academic departments include faculty members who conduct sustainability research.

Any level of sustainability research by a faculty member in a department is sufficient for this credit.

The total number of academic departments that conduct research:
11

The number of academic departments in which at least one faculty member engages in sustainability research:
5

A list of academic departments in which at least one faculty member engages in sustainability research:

Naturopathic Medicine
Nutrition
Botanical Medicine
Graduate and Community Medicine
Clinical Sciences

The website URL where the sustainability research inventory that includes the departments engaged in sustainability research is posted:
---

A copy of the sustainability research inventory that includes the departments engaged in sustainability research:
---
Sustainability Research Incentives

Criteria

Part 1
Institution has an ongoing program to encourage students in multiple disciplines or academic programs to conduct research in sustainability. The program provides students with incentives to research sustainability. Such incentives may include, but are not limited to, fellowships, financial support, and mentorships.

Part 2
Institution has an ongoing program to encourage faculty from multiple disciplines or academic programs to conduct research in sustainability topics. The program provides faculty with incentives to research sustainability. Such incentives may include, but are not limited to, fellowships, financial support, and faculty development workshops.

"---" indicates that no data was submitted for this field

Does the institution have a program to encourage student sustainability research that meets the criteria for this credit? :
No

A brief description of the institution’s program(s) to encourage student research in sustainability :
---

The website URL where information about the student research program is available :
---

Does the institution have a program to encourage faculty sustainability research that meets the criteria for this credit? :
No

A brief description of the institution’s program(s) to encourage faculty research in sustainability :
---

The website URL where information about the faculty research program is available :
---
Interdisciplinary Research in Tenure and Promotion

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution gives positive recognition to interdisciplinary, transdisciplinary, and multidisciplinary research during faculty promotion and tenure decisions.

"---" indicates that no data was submitted for this field

Does the institution's treatment of interdisciplinary research meet the criteria for this credit? :
Yes

A brief description or a copy of the institution’s policy regarding interdisciplinary research :

The University's holistic approach to health makes interdisciplinary collaboration and research essential for the success of both faculty and students.

The website URL where information about the treatment of interdisciplinary research is available :
---
Operations

Buildings

This subcategory seeks to recognize institutions that are taking steps to improve the sustainability performance of their buildings. Buildings are generally the largest user of energy and the largest source of greenhouse gas emissions on campuses. Buildings also use significant amounts of potable water. Institutions can design, build, and maintain buildings in ways that provide a safe and healthy indoor environment for inhabitants while simultaneously mitigating the building’s impact on the outdoor environment.

From the institution:

Campus of 52 acres. One main building of 190,000 sq. ft. and 11 resident halls in a student village housing development totally 51,000 sq. ft.

Building Operations and Maintenance

Responsible Party
Gary Nevuis
Facilities Manager
Facilities

Criteria

Institution owns and operates buildings that are:

1) Certified under the LEED® for Existing Buildings: Operations & Maintenance (O&M) Green Building Rating System, and/or

2) Operated and maintained in accordance with sustainable operations and maintenance guidelines and policies that cover the following:
   - Impacts on the surrounding site
   - Energy consumption
   - Usage of environmentally preferable materials
   - Indoor environmental quality
   - Water consumption

"---" indicates that no data was submitted for this field

Total building space that meets "Eligible Buildings Criteria":
190000 Square Feet

Building space that is maintained in accordance with sustainable building operations and maintenance guidelines or policies but is NOT certified under LEED for Existing Buildings: O&M:
190000 Square Feet

Building space that is LEED for Existing Buildings: O&M Certified:
0 Square Feet

Building space that is LEED for Existing Buildings: O&M Silver certified:
0 Square Feet

Building space that is LEED for Existing Buildings: O&M Gold certified:
0 Square Feet

Building space that is LEED for Existing Buildings: O&M Platinum certified:
The website URL where a copy of the institution's guidelines or policies for sustainable building operations and maintenance is available:
http://Bastyr.edu/

An electronic copy of the guidelines or policies:
---

The date(s) the policies or guidelines were adopted:
not complete

A brief description of how the institution ensures compliance with sustainable building operation and maintenance guidelines and policies:
Use certified cleaning and operation protocols as stated in the certification manuals in LEED for Homes.

The names and certification levels of all buildings that are certified under LEED for Existing Buildings: O&M:
---

The names of all buildings operated and maintained in accordance with similar sustainable operations and maintenance guidelines and policies:
All buildings on Campus use same certified practices for cleaning and operations.
Building Design and Construction

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Institution-owned buildings that were constructed or underwent major renovations in the past three years are:

1) Certified under the LEED® for New Construction and Major Renovations, LEED for Commercial Interiors, and/or LEED for Core and Shell Green Building Rating Systems,

and/or

2) Designed and built in accordance with green building guidelines and policies that cover the following topics:

- Impacts on the surrounding site
- Energy consumption
- Usage of environmentally preferable materials
- Indoor environmental quality
- Water consumption

"---" indicates that no data was submitted for this field

New building space that meets "Eligible Buildings Criteria" :
51000 Square Feet

New building space that was designed and constructed in accordance with green building policies or guidelines but not LEED certified :
0 Square Feet

New building space that is LEED Certified :
0 Square Feet

New building space that is LEED Silver certified :
0 Square Feet

New building space that is LEED Gold certified :
0 Square Feet
New building space that is LEED Platinum certified:

51000 Square Feet

The website URL where a copy of the institution's guidelines or policies for green building is available:

http://Bastyr.edu/

An electronic copy of the guidelines or policies:

---

The date(s) the policies or guidelines were adopted:

July 2010

A brief description of how the institution ensures compliance with green building design and construction guidelines and policies:

All work done per original guidelines established during certification process. Monthly, qtrly and annual required pm specs.

The names of all buildings that are certified under the LEED for New Construction and Major Renovations, LEED for Commercial Interiors, and/or LEED for Core and Shell Green Building Rating Systems:

Each student Hall was certified under LEED for Homes at Platinum Level. 11 LEED Platinum buildings on one site.

The names of all buildings designed and constructed in accordance with green building guidelines and policies but not LEED certified:

---
Indoor Air Quality

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Institution has adopted an indoor air quality management policy, plan, and/or practices that include regular auditing or monitoring and a mechanism for occupants to register complaints. Policies and plans adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

"---" indicates that no data was submitted for this field

Occupied building space covered by an indoor air quality plan, policy, and/or practices that include regular auditing or monitoring and a mechanism for occupants to register complaints:

239000 Square Feet

Total occupied building space:

241000 Square Feet

A brief description of the institution's indoor air quality plan, policy, and/or practices:

all mechanical supply air filtered with MERV 11 filters. Qtrly pm change out in place, no ac required for buildings. All windows are operable sash.

The website URL where information about the institution's indoor air quality initiatives is available:

http://Bastyr.edu/
Climate

This subcategory seeks to recognize institutions that are measuring and reducing their greenhouse gas emissions. Global warming is expected to have myriad negative impacts throughout the world, including increased frequency and potency of extreme weather events, sea level rise, species extinction, water shortages, declining agricultural production, and spread of diseases. The impacts are expected to be particularly pronounced for poor communities and countries.

Greenhouse Gas Emissions Inventory

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Part 1

Institution has conducted a GHG emissions inventory covering its Scope 1 and Scope 2 emissions. The GHG emissions inventory is publicly available, either through the American College & University Presidents’ Climate Commitment reporting site, the institution’s website, or another public website.

Part 2

Institution has conducted a GHG emissions inventory covering Scope 3 emissions. The GHG emissions inventory is publicly available, either through the American College & University Presidents’ Climate Commitment reporting site, the institution’s website, or another public website.

"---” indicates that no data was submitted for this field

The website URL where the GHG emissions inventory is posted:

http://Bastyr.edu/

Does the inventory include all Scope 1 and 2 emissions? :
Yes

Does the inventory include emissions from air travel? :
Yes

Does the inventory include emissions from commuting? :
Yes

Does the inventory include embodied emissions from food purchases? :
No

Does the inventory include embodied emissions from other purchased products? :
No
Does the inventory include emissions from solid waste disposal? :
Yes

Does the inventory include another Scope 3 emissions source not covered above? :
No

If yes, please specify :
---

Does the inventory include a second Scope 3 emissions source not covered above? :
---

If yes, please specify :
---

Does the inventory include a third Scope 3 emissions source not covered above? :
---

If yes, please specify :
---

Does the inventory include a fourth Scope 3 emissions source not covered above? :
---

If yes, please specify :
---
Greenhouse Gas Emissions Reduction

Criteria

Institution reduced its net Scope 1 and Scope 2 GHG emissions per weighted campus user compared to a 2005 baseline.

For this credit, off-site, institution-catalyzed carbon offsets (i.e. those popularly known as “local offsets”) count in full. Purchased carbon offsets that have been verified by a third party may count towards a portion of the reduction. Purchased offsets that have not been third-party verified do not count.

To conduct a GHG emissions inventory, campuses may use any methodology and/or calculator that is consistent with the Greenhouse Gas Protocol's Corporate Accounting and Reporting Standards.

The baseline GHG emissions inventory should include the same emissions sources as the performance year emissions inventory.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Air Travel Emissions

"---" indicates that no data was submitted for this field

Does the institution have policies and/or programs in place to reduce emissions from air travel? :
No

A brief description of the policies and/or programs :
---

The website URL where information about the policies and/or programs is available :
---
Does the institution have a local offsets program through which the institution seeks to offset its greenhouse gas emissions by implementing projects that reduce GHG emissions in the local community?:

Yes

A brief description of the program:

Bastyr University has eleven residential buildings of which has a carbon balance program with Puget Sound Energy.

The website URL where information about the program is available:

http://pse.com/savingsandenergycenter/CarbonBalance
Dining Services

This subcategory seeks to recognize institutions that are supporting a sustainable food system. Modern industrial food production often has deleterious environmental impacts. Pesticides and fertilizers used in agriculture can contaminate ground and surface water, which has potentially dangerous impacts on wildlife and human health. Furthermore, the often long-distance transportation of food to institutions produces greenhouse gas emissions and other pollution. Additionally, farm workers are often paid substandard wages, subjected to harsh working conditions, and exposed to dangerous pesticides. Institutions can use their food purchases to support their local economies; encourage safe, environmentally-friendly farming methods; and help alleviate poverty for farmers.

Please note that while dining services can also play an important role in conserving energy and water, reducing waste, and purchasing environmentally preferable materials other than food, STARS measures these impacts across the institution instead of by department; therefore, the benefits of these actions are captured in the Energy, Water, Waste, and Purchasing subcategories, respectively.

Food and Beverage Purchasing

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

This credit includes food and beverage purchases for on-campus dining services operated by the institution or the institution’s primary on-site contractor. Institution purchases food and beverages that meet at least one of the following criteria:

- Grown and processed within 250 miles of the institution
- Third-party certified (USDA Certified Organic, Marine Stewardship Council Blue Ecolabel, Food Alliance, Fair Trade, Certified Humane Raised and Handled)

Food and beverage purchases that meet multiple criteria listed above should not be double-counted.

This credit includes food and beverage purchases for on-campus dining operations and catering services operated by the institution or the institution’s primary dining services contractor (e.g. Aramark, Bon Appétit Management Company, Chartwells, Sodexo). On-site franchises, convenience stores, vending machines, or concessions are excluded from this credit unless they are operated by the institution or the institution’s primary on-site contractor.

"---" indicates that no data was submitted for this field

Percentage of food expenditures that meet one or more of the criteria for this credit (0 - 100)

90

A brief description of the sustainable food and beverage purchasing program

The Bastyr Dining Commons uses the University’s whole-food approach to nutrition, emphasizing unprocessed and minimally processed foods with a focus on plant-based foods. Ingredients come from local, organic sources. Meat is minimal and responsibly sourced. The dining commons is an extension of the University’s philosophy that food is an integral part of health.

---
Energy

This subcategory seeks to recognize institutions that are reducing their energy consumption through conservation and efficiency, and switching to cleaner and renewable sources of energy such as solar, wind, geothermal, and low-impact hydropower. For most institutions, energy consumption is the largest source of greenhouse gas emissions, which cause global warming. Global warming is expected to have myriad negative impacts throughout the world, including increased frequency and potency of extreme weather events, sea level rise, species extinction, water shortages, declining agricultural production, and spread of diseases. The impacts are expected to be particularly pronounced for poor communities and countries. In addition to causing global warming, energy generation from fossil fuels, especially coal, produces air pollutants such as sulfur dioxide, nitrogen oxides, mercury, dioxins, arsenic, cadmium and lead. These pollutants contribute to acid rain as well as health problems such as heart and respiratory diseases and cancer. Coal mining and oil and gas drilling can also damage environmentally and/or culturally significant ecosystems. Nuclear power creates highly toxic and long-lasting radioactive waste. Large-scale hydropower floods habitat and disrupts fish migration.

Implementing conservation measures and switching to renewable sources of energy can help institutions save money and protect them from utility rate volatility. Renewable energy may be generated locally and allow campuses to support local economic development. Furthermore, institutions can help shape markets by creating demand for cleaner, renewable sources of energy.

</tbody>
</table>
Building Energy Consumption

Criteria

Institution has reduced its total building energy consumption per gross square foot of building space compared to a 2005 baseline.

To aggregate energy consumption data from multiple sources, figures should be converted into MMBtu (one million British thermal units – a standard measure of energy) using the following equivalents:

1 kWh = 0.003412 MMBtu

1 MWh = 3.412 MMBtu

1 therm = 0.1 MMBtu

1 kBtu = 0.001 MMBtu

1 ton-hour = 0.012 MMBtu

1 MJ = 0.000948 MMBtu

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Clean and Renewable Energy

Criteria

Institution supports the development and use of clean and renewable energy sources using any one or combination of the following options.

Option 1: Generating electricity from clean and renewable energy sources on campus and retaining or retiring the rights to the environmental attributes of such electricity. (In other words, if the institution has sold Renewable Energy Credits for the clean and renewable energy it generated, it may not claim such energy here). The on-site renewable energy generating devices may be owned and/or maintained by another party as long as the institution has contractual rights to the associated environmental attributes.

Option 2: Using renewable sources for non-electric, on-site energy generation, such as biomass for heating.

Option 3: Catalyzing the development of off-site clean and renewable energy sources (e.g. an off-campus wind farm that was designed and built to supply electricity to the institution) and retaining the environmental attributes of that energy.

Option 4: Purchasing the environmental attributes of electricity in the form of Renewable Energy Certificates (RECs) or other similar renewable energy products that are either Green-e Energy certified or meet Green-e Energy’s technical requirements and are verified as such by a third party, or purchasing renewable electricity through the institution’s electric utility through a certified green power purchasing option.

Option 5: Using cogeneration technologies to generate electricity more efficiently. Note: generating electricity using cogeneration technology and a renewable fuel, such as biomass, is considered Option 1 and should not be counted twice.

Since this credit is intended to recognize institutions that are generating new sources of clean and renewable energy, neither the electric grid mix for the region in which the institution is located nor the grid mix reported by the electric utility that serves the institution count for this credit.

Technologies that reduce the amount of energy used but do not generate renewable energy do not count for this credit. For example, daylighting, passive solar design, and ground-source heat pumps are not counted in this credit. The benefits of such strategies are captured by OP Credit 5: Greenhouse Gas Emissions Reductions and OP Credit 7: Building Energy Consumption.

Transportation fuels, which are covered by OP Credit 14: Campus Fleet, are not included in this credit.

To aggregate energy consumption data from multiple sources, figures should be converted into MMBtu (one million British thermal units – a standard measure of energy) using the following equivalents:

1 kWh = 0.003412 MMBtu
1 MWh = 3.412 MMBtu
1 therm = 0.1 MMBtu
1 kBtu = 0.001 MMBtu
1 ton-hour = 0.012 MMBtu
1 MJ = 0.000948 MMBTU

Criteria

Part 1
Institution has an institution-wide stated preference to purchase Green Seal™ or EcoLogo™ certified cleaning products. The stated preference can take the form of purchasing policies, guidelines, or directives to purchase green cleaning products. Policies and directives adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

Part 2
Institution’s main cleaning or housekeeping department(s) and/or contractor(s) purchase Green Seal or EcoLogo certified cleaning products. This credit does not include cleaning products for which no Green Seal or EcoLogo certified products are available.

Does the institution have an institution-wide stated preference to purchase Green Seal (tm) or EcoLogo (tm) certified cleaning products? :
Yes

The website URL where the green cleaning product purchasing policy, directive, or guidelines are posted :
http://info.waxie.com/green/waxie-gps

A brief description of steps the institution has taken to ensure that the purchasing policy, directives, or guidelines are followed :

GCA Services Group (janitorial contractor) has been directed by Gary Nevius, Facilities Manager, Bastyr University to purchase products that confirm to a rigorous regimen of standards that reflect the Platinum Leeds Standards certification and the culture of Bastyr University. Gary Nevius of the Bastyr Facilities Department audits all supply purchases introduced into the buildings by GCA Services. Product changes must be approved by the facilities department. New products are presented to the facilities department for review, and then discussed in committee by department heads from Facilities, Conference Services, Security & Transportation, and the Director of Facilities for approval.

Does the institution wish to pursue points for Part 2 of this credit (expenditures on cleaning products)? :
Yes
Expenditures on Green Seal and/or EcoLogo certified cleaning products:
46800 US/Canadian $

Total expenditures on cleaning products:
46800 US/Canadian $

A copy of the sections of the cleaning contract(s) that reference certified green products:
Stars Reporting OP-11 CLEANING.doc
Office Paper Purchasing

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Part 1

Institution has an institution-wide stated preference to purchase recycled content office paper. This can take the form of purchasing policies, guidelines, or directives to purchase recycled content office paper. Policies and directives adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

Part 2

Institution purchases recycled content office paper.

"---" indicates that no data was submitted for this field

Does the institution have an institution-wide stated preference to purchase recycled content office paper? :
Yes

The URL where the recycled paper policy, directive, or guidelines are posted :
http://bastyr.edu/

A brief description of steps the institution has taken to ensure that the purchasing policy, directives, or guidelines are followed :

Office Depot® Brand 30% Recycled EnviroCopy® FSC Certified Paper, 8 1/2” x 11”, 20 Lb, 104 (Euro)/92 (U.S.) Brightness, 500 Sheets Per Ream, Case Of 10 ReamsItem # 940650 /www.officedepot.com
Bastyr has tried to use 100% recycle and it jammed up many printers. Using the 30% recycled works best.

Does the institution wish to pursue points for Part 2 of this credit (expenditures on recycled paper)? :
Yes

Expenditures on 10-29 percent recycled-content office paper :
0 US/Canadian $

Expenditures on 30-49 percent recycled-content office paper :
15000 US/Canadian $

**Expenditures on 50-69 percent recycled-content office paper:**

0 US/Canadian $

**Expenditures on 70-89 percent recycled-content office paper (required if claiming points for Part 2):**

0 US/Canadian $

**Expenditures on 90-100 percent recycled-content office paper:**

0 US/Canadian $

**Total expenditures on office paper:**

15000 US/Canadian $
Vendor Code of Conduct

Criteria

Institution has and acts on a vendor code of conduct or equivalent policy that sets expectations about the social and environmental responsibility of vendors with whom the institution does business. Policies adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

Historically Underutilized Businesses

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Local Businesses

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Transportation

This subcategory seeks to recognize institutions that are moving toward sustainable transportation systems. Transportation is a major source of greenhouse gas emissions and other pollutants that contribute to health problems such as heart and respiratory diseases and cancer. Due to disproportionate exposure, these health impacts are frequently more pronounced in low-income communities next to major transportation corridors. In addition, the extraction, production, and global distribution of fuels for transportation can damage environmentally and/or culturally significant ecosystems and may financially benefit hostile and/or oppressive governments.

At the same time, campuses can reap benefits from modeling sustainable transportation systems. Bicycling and walking provide human health benefits and mitigate the need for large areas of paved surface, which can help campuses to better manage storm water. Institutions may realize cost savings and help support local economies by reducing their dependency on petroleum-based fuels for transportation.

Campus Fleet

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Institution supports alternative fuel and power technology by including in its motorized vehicle fleet (cars, trucks, tractors, buses) vehicles that are:

1. Gasoline-electric hybrid
2. Diesel-electric hybrid
3. Plug-in hybrid
4. 100 percent electric
5. Fueled with Compressed Natural Gas (CNG)
6. Hydrogen fueled
7. Fueled with B20 or higher biofuel for more than 6 months of the year; and/or
8. Fueled with E85 or higher ethanol for more than 6 months of the year.

For this credit, the institution’s motorized fleet includes all institution-owned and operated vehicles that are used for transporting people and/or goods. Heavy construction equipment (e.g. excavators and pavers) and maintenance equipment (e.g. lawn-mowers and leaf blowers) are not included in this credit.

"---" indicates that no data was submitted for this field

Gasoline-electric, non-plug-in hybrid vehicles in the institution’s fleet :
0

Diesel-electric, non-plug-in hybrid vehicles in the institution’s fleet :
0

Plug-in hybrid vehicles in the institution’s fleet :

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Waste

This subcategory seeks to recognize institutions that are moving toward zero waste by reducing, reusing, recycling, and composting. These actions mitigate the need to extract virgin materials, such as trees and metals. It generally takes less energy and water to make a product with recycled material than with virgin resources. Reducing waste generation also reduces the flow of waste to incinerators and landfills which produce greenhouse gas emissions, can contaminate air and groundwater supplies, and tend to have disproportionate negative impacts on low-income communities. Waste reduction and diversion also save institutions costly landfill and hauling service fees. In addition, waste reduction campaigns can engage the entire campus community in contributing to a tangible sustainability goal.

Waste Reduction

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Institution has implemented source reduction strategies to reduce total waste generation (garbage, recycling, and compost) per weighted campus user compared to a 2005 baseline.

Total waste generation includes all materials recycled, composted, and disposed of as trash except construction, demolition, electronic, hazardous, special (e.g. coal ash), universal and non-regulated chemical waste, which are covered in OP Credit 19: Construction and Demolition Waste Diversion, OP Credit 20: Electronic Waste Recycling Program, and OP Credit 21: Hazardous Materials Management.

"---" indicates that no data was submitted for this field

Weight of materials recycled, 2005 baseline year:
123 Tons

Weight of materials composted, 2005 baseline year:
0 Tons

Weight of materials disposed as garbage, 2005 baseline year:
250 Tons

Weight of materials recycled, performance year:
174 Tons

Weight of materials composted, performance year:
101 Tons

Weight of materials disposed as garbage, performance year:
156 Tons

List the start and end dates of the waste reduction performance year:
June 2011, May 2012

On-campus residents, 2005:

---
Non-residential/commuter full-time students, faculty, and staff members, 2005:
1225

Non-residential/commuter part-time students, faculty, and staff members, 2005:
0

On-campus residents, performance year:
80

Non-residential/commuter full-time students, faculty, and staff members, performance year:
1350

Non-residential/commuter part-time students, faculty, and staff members, performance year:
0

Time period for weighted campus user (list the consecutive 12 month period that most closely overlaps with waste reduction performance year):
June 2011, May 2012

Indication of whether institution has a stated commitment to waste-reduction goals, such as zero waste:
No

A brief description of the plan of action to achieve waste reduction goals:
Introducing Cedar Grove compost program, eduction of program to staff & students.

The website URL where information about the institution’s waste reduction initiatives is available:
http://Bastyr.edu/
Waste Diversion

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Institution diverts materials from the landfill or incinerator by recycling, composting, reusing, donating, or re-selling.

This credit does not include construction, demolition, electronic, hazardous, special (e.g. coal ash), universal and non-regulated chemical waste, which are covered in OP Credit 19: Construction and Demolition Waste Diversion, OP Credit 20: Electronic Waste Recycling Program, and OP Credit 21: Hazardous Materials Management.

"---" indicates that no data was submitted for this field

Materials recycled, composted, reused, donated, re-sold, or otherwise diverted:
10 Tons

Materials disposed in a solid waste landfill or incinerator:
0 Tons

A brief description of programs, policies, infrastructure investments, outreach efforts, and/or other factors that contributed to the diversion rate:
State of washington WAC 173-303-573 WASTE LAMPS.
Recycle and proper disposal of Electronic computers and montors, Scrap Metals, Batteries (all Types), printer toner cartiages, re-purpose usable desk and office items.
Being good stewarts of enviroment. Practice the University's teachings of Body, Mind, Soul.
Construction and Demolition Waste Diversion

Criteria

Institution diverts non-hazardous construction and demolition waste from the landfill and/or incinerator.

Soil and organic debris from excavating or clearing the site do not count for this credit.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Electronic Waste Recycling Program

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Part 1

Institution has a program in place to recycle, reuse, and/or refurbish all electronic waste generated by the institution. Institution takes measures to ensure that the electronic waste is recycled responsibly.

Part 2

Institution has a program in place to recycle, reuse, and/or refurbish electronic waste generated by students. Institution takes measures to ensure that the electronic waste is recycled responsibly.

--- indicates that no data was submitted for this field

Does the institution have a program in place to recycle, reuse, and/or refurbish all electronic waste generated by the institution and take measures to ensure that the electronic waste is recycled responsibly? :
Yes

Does the institution have a program in place to recycle, reuse, and/or refurbish electronic waste generated by students and take measures to ensure that the electronic waste is recycled responsibly? :
Yes

A brief description of steps taken to ensure that e-waste is recycled responsibly, workers’ basic safety is protected, and environmental standards are met :

Proper traning to staff in handling and storage is reviewed annually. Training information is from Washington State L&I department.

A brief description of the electronic waste recycling program for institution-generated materials :

Since 2003 Bastyr has been ensuring that All e-waste is handled and disposed of properly. All items are on record with Ecolight Northwest LLC, for batteies, tubes/lamps, and ballasts. Annual we donate our computers and monitors to programs that try to refurbish and or re-cycle componets in proper recycling mprocedures.

A brief description of the electronic waste recycling program for student-generated materials :

E-Cycle Recycle station are in place for students/staff for batteries and CFL lamps.

The website URL where information about the e-waste recycling program is available:

Move-Out Waste Reduction

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

"---" indicates that no data was submitted for this field

Does the institution have a program to reduce residence hall move-out waste? :
Yes

A brief description of the program :
Students who are only leaving for the summer and will move back in the fall may store things either in their room, or in a room in the residence hall. In this way, students do not have to box up items and use packing material.

The website URL where information about the program is available :
http://bastyr.edu/
Water

This subcategory seeks to recognize institutions that are conserving water and making efforts to protect water quality. Pumping, delivering, and treating water is a major energy user, so institutions can help reduce energy consumption and the greenhouse gas emissions associated with energy generation by conserving water. Likewise, conservation and effective stormwater management are important in maintaining and protecting finite groundwater supplies. Water conservation and effective stormwater management also reduce the need for effluent discharge into local surface water supplies, which helps improve the health of local water ecosystems.

Stormwater Management

Responsible Party

Gary Nevuis
Facilities Manager
Facilities

Criteria

Part 1

Institution has adopted a stormwater management policy, plan, and/or strategies that mitigate the stormwater runoff impacts of new construction, major renovation, and other projects that increase paved surface area on campus or otherwise significantly change the campus grounds.

The policy, plan, and/or strategies address both the quantity and quality (or contamination level) of stormwater runoff.

The policy, plan, and/or strategies cover the entire campus. While the specific strategies or practices adopted may vary depending on project type and location, this credit is reserved for institutions that mitigate stormwater runoff impacts consistently during new construction. Implementing a strategy or strategies for only one new development project is not sufficient for this credit.

Policies adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

Part 2

Institution has adopted a stormwater management policy, plan, or strategies that mitigate the stormwater runoff impacts of ongoing campus operations.

The policy, plan, or strategies address both the quantity and quality (or contamination level) of stormwater runoff.

Though specific practices adopted may vary across the campus, the policy, plan, and/or strategies cover the entire institution. Implementing strategies for only one building or area of campus is not sufficient for this credit.

"---" indicates that no data was submitted for this field

Does the institution have a policy, plan, and/or strategies to reduce stormwater runoff from new development projects? :
Yes

Does the institution have a policy, plan, and/or strategies to reduce stormwater runoff from ongoing campus operations? :
No

Cooration and Planning

This subcategory seeks to recognize colleges and universities that are institutionalizing sustainability by dedicating resources to sustainability coordination, incorporating sustainability into their primary campus plans, and developing plans to move towards sustainability. Staff and other resources help an institution organize, implement, and publicize sustainability initiatives. These resources provide the infrastructure that fosters sustainability within an institution. Strategic and physical campus plans guide an institution and its physical development. These important documents establish an institution’s priorities and influence budgeting and decision making. Incorporating sustainability into these plans is an important step in making sustainability a campus priority and may help advocates implement sustainable changes. Sustainability plans and climate plans provide a road map for how to achieve sustainability goals.

Does the institution have a sustainability coordinator?:
Yes

Sustainability coordinator's name:
Gary Nevius

Sustainability coordinator's position title:
Facilities and Capital Projects Manager

A brief description of the sustainability coordinator's position:
Manages facilities and capital projects, including sustainability initiatives.

The website URL where information about the sustainability coordinator is available:
---
Strategic Plan

Criteria

Institution's current, formally adopted strategic plan or equivalent guiding document includes sustainability at a high level. The plan covers the entire institution.

An amendment to the strategic plan may count for this credit, as long as the institution always presents the amendment with the original plan.

Neither a physical campus plan (which is covered in PAE Credit 3: Physical Campus Plan) nor an independent sustainability plan (which is covered in PAE Credit 5: Sustainability Plan) counts for this credit.

"---" indicates that no data was submitted for this field

Year the strategic plan or equivalent was completed or adopted :
---

Does the institution's strategic plan or equivalent guiding document include the environmental dimensions of sustainability at a high level? :
---

A brief description of how the strategic plan or amendment addresses the environmental dimensions of sustainability :
---

Does the institution's strategic plan or equivalent guiding document include the social dimensions of sustainability at a high level? :
---

A brief description of how the strategic plan or amendment addresses the social dimensions of sustainability :

Does the institution's strategic plan or equivalent guiding document include the economic dimensions of sustainability at a high level? :
---

A brief description of how the strategic plan or amendment addresses the economic dimensions of sustainability :
---

The website URL where information about the strategic plan is available :
---
Physical Campus Plan

Criteria

Institution’s current plan for its physical campus (commonly referred to as the campus master plan) includes sustainability at a high level.

An amendment to the plan may count for this credit, as long as the institution always presents the amendment with the original plan.

Neither a strategic plan (which is covered in PAE Credit 2: Strategic Plan) nor an independent sustainability plan (which is covered in PAE Credit 4: Sustainability Plan) counts for this credit.

Plans developed at the system level are eligible for this credit. Likewise, multiple plans which together cover the institution’s entire physical campus are eligible for this credit.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Sustainability Plan

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution has a sustainability plan that was developed with input from faculty, staff, and students. The plan includes measurable goals with corresponding strategies and timeframes to achieve the goals. The plan need not be formally adopted.

The plan covers multiple sustainability topics and issues. Plans focused exclusively on climate change, which are covered by PAE Credit 5: Climate Plan, are not eligible for this credit.

Strategic or master plans that cover sustainability may count for this credit if they meet the other criteria outlined above.

"---" indicates that no data was submitted for this field

Does the institution have a sustainability plan that meets the criteria for this credit? : No

A brief description of how multiple stakeholder groups were involved in developing the plan :
---

A brief description of the plan’s measurable goals :
---

A brief description of how progress in meeting the plan’s goals is measured :
---

The website URL where more information about the sustainability plan is available :
---

The year the plan was developed or last updated :
---
Climate Action Plan

Criteria

Institution has a formal plan to mitigate its greenhouse gas emissions. The plan includes a measurable, numerical goal or goals and a corresponding date or dates by which the institution aims to achieve its goal(s). The plan has been adopted by the institution’s administration.

A formal sustainability plan (i.e. a plan that has been adopted by the administration) counts for this credit if it includes climate change goals, strategies, and corresponding timeframes. Such a plan may also count toward PAE Credit 4: Sustainability Plan.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
This subcategory seeks to recognize institutions that are working to advance diversity and affordability on campus. In order to build a sustainable society, diverse groups will need to be able to come together and work collaboratively to address sustainability challenges. People of color and low-income communities tend to suffer disproportionate exposure to environmental problems. This environmental injustice happens as a result of unequal and segregated communities. To achieve environmental and social justice, society must work to address discrimination and promote equality. The historical legacy and persistence of discrimination based on racial, gender, religious, and other differences makes a proactive approach to promoting a culture of inclusiveness an important component of creating an equitable society. Higher education opens doors to opportunities that can help create a more equitable world, and those doors must be open through affordable programs accessible to all regardless of race, gender, religion, socio-economic status and other differences. In addition, a diverse student body, faculty, and staff provide rich resources for learning and collaboration.

Diversity and Equity Coordination

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution has a diversity and equity committee, office, and/or coordinator that are tasked by the administration or board of trustees to advise on and implement policies, programs, and trainings related to diversity and equity on campus.

"---" indicates that no data was submitted for this field

Does the institution have a diversity and equity committee? :
Yes

The charter or mission statement of the committee or a brief description of the committee's purview and activities :

The Bastyr Diversity Committee promotes diversity in staffing, student life and student retention through educational events, campus dialogues and student-led projects.

Members of the committee, including job titles and affiliations :

Daniel C. Rosen, PhD - Health Psychology Faculty

The website URL where information about the diversity and equity committee is available :
---

Does the institution have a diversity and equity office? :
No

A brief description of the diversity office :
---

The number of people employed in the diversity office :
---

The website URL where information about the diversity and equity office is available :
---
Does the institution have a diversity and equity coordinator?:
No

Diversity coordinator’s name:
---

Diversity coordinator’s position title:
---

A brief description of the diversity coordinator’s position:
---

The website URL where information about the diversity and equity coordinator is available:
---
Measuring Campus Diversity Culture

Criteria

Institution assesses attitudes about diversity and equity on campus and uses the results to guide policy, programs, and initiatives.

Institution may measure its culture of diversity and equity using one assessment for the entire institution or using separate assessments that taken together cover the entire institution.

Assessments conducted during the previous five years are eligible for this credit.

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Support Programs for Underrepresented Groups

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution has mentoring, counseling, peer support, affinity groups, academic support programs, or other programs in place to support underrepresented groups on campus.

"---" indicates that no data was submitted for this field

Does the institution have mentoring, counseling, peer support, affinity groups, academic support programs, or other programs in place to support underrepresented groups on campus? : Yes

A brief description of the programs sponsored by the institution to support underrepresented groups within the student body :

Bastyr's Queer Health Club provides a safe space and voice for equality for the Bastyr University Lesbian, Gay, Bisexual, Transgendered, Queer and Allies. It seeks to foster a community that supports the health and well-being of our students and the greater LGBTQ population.

Women for Empowerment Through the Arts (WETA) celebrates women and their changing role in our society and attemptst to educate others about cultures still unable to feel the freedom of gender equality.

Other students groups provide similar support for underrepresented groups.

A brief description of the programs sponsored by the institution to support underrepresented groups within the faculty :

Bastyr's Queer Health Club provides a safe space and voice for equality for the Bastyr University Lesbian, Gay, Bisexual, Transgendered, Queer and Allies. It seeks to foster a community that supports the health and well-being of our students and the greater LGBTQ population.

Women for Empowerment Through the Arts (WETA) celebrates women and their changing role in our society and attemptst to educate others about cultures still unable to feel the freedom of gender equality.

A brief description of the programs sponsored by the institution to support underrepresented groups within the staff :
Bastyr's Queer Health Club provides a safe space and voice for equality for the Bastyr University Lesbian, Gay, Bisexual, Transgendered, Queer and Allies. It seeks to foster a community that supports the health and well-being of our students and the greater LGBTQ population.

The website URL where more information about the programs in each of the three categories is available:

---
Support Programs for Future Faculty

Criteria

Institution administers and/or participates in a program or programs to help build a diverse faculty throughout higher education.

Such programs could take any of the following forms:

- Teaching fellowships or other programs to support terminal degree students from underrepresented groups in gaining teaching experience. (The terminal degree students may be enrolled at another institution).
- Mentoring, financial, and/or other support programs to prepare and encourage undergraduate or other non-terminal degree students to pursue further education and careers as faculty members.
- Mentoring, financial, and/or other support programs for doctoral and post-doctoral students from underrepresented groups.

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Affordability and Access Programs

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Institution has policies and programs in place to make it accessible and affordable to low-income students. Such policies and programs may include, but are not limited to, the following:

• Policies and programs to minimize the cost of attendance for low-income students
• Programs to equip the institution’s faculty and staff to better serve students from low-income backgrounds
• Programs to prepare students from low-income backgrounds for higher education such as the federal TRIO programs
• Scholarships for low-income students
• Programs to guide parents of low-income students through the higher education experience
• Targeted outreach to recruit students from low-income backgrounds
• Other admissions policies or programs
• Other financial aid policies or programs

Institutions are not required to have programs or policies in each of the above areas in order to earn this credit. They may pursue the policies and programs that are appropriate for their context.

"---" indicates that no data was submitted for this field

Does the institution have policies and programs in place to make it accessible and affordable to low-income students?

: Yes

A brief description of the institution’s participation in federal TRIO programs:

---

A brief description of the institution’s policies and programs to minimize the cost of attendance for low-income students:

The University provides need-based financial aid for low-income students.

A brief description of the institution’s programs to equip the institution's faculty and staff to better serve students from low-income backgrounds:

---
A brief description of the institution’s programs to prepare students from low-income backgrounds for higher education:
---

A brief description of the institution's scholarships for low-income students:
---

A brief description of the institution’s programs to guide parents of low-income students through the higher education experience:
---

A brief description of the institution’s targeted outreach to recruit students from low-income backgrounds:
---

A brief description of the institution’s other admissions policies and programs:
---

Gender Neutral Housing

"---" indicates that no data was submitted for this field

Does the institution offer housing options to accommodate the special needs of transgender and transitioning students (either as a matter of policy or as standard practice)?

No

A brief description of the program, policy, or practice:
---

The website URL where information about the program, policy, or practice is available:
---
Employee Training Opportunities

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Student Training Opportunities

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Human Resources

This subcategory seeks to recognize institutions that have incorporated sustainability into their human resources programs and policies. This includes recognition for treating and remunerating their workers responsibly and fairly. An institution’s people define its character and capacity to perform; and so, an institution’s achievements can only be as strong as its community. An institution can bolster the strength of its community by making fair and responsible investments in its human capital. Such investments include offering benefits, wages, and other assistance that serve to respectfully and ethically compensate workers. Investment in human resources is integral to the achievement of a healthy and sustainable balance between human capital, natural capital, and financial capital.

In addition, this subcategory recognizes faculty and staff training and development programs in sustainability. Faculty and staff members’ daily decisions impact an institution’s sustainability performance. Equipping faculty and staff with the tools, knowledge, and motivation to adopt behavior changes that promote sustainability is an essential activity of a sustainable campus.

</tbody>
</table>
Sustainable Compensation

Criteria

Institution evaluates, and updates as appropriate, its wages and benefits policies and its guidelines for contractors operating on campus to ensure that total compensation (wages plus benefits) for all on-campus workers is sufficient to enable these employees to meet their basic needs, as defined by the institution. This evaluation is completed at least once every three years.

Student workers are not covered by this credit.

While wages and total compensation set in the following ways may constitute sustainable compensation, institutions should conduct a basic needs assessment to ensure that the total compensation is adequate before claiming points for this credit:

- Paying prevailing wages for job type or classification
- Paying average or above average wages for the region or city where the institution is located
- Paying minimum wages or a set amount above the minimum wage

Policies and practices adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Employee Satisfaction Evaluation

Criteria

Institution conducts a survey or other evaluation that allows for anonymous feedback at least once every five years to measure employee satisfaction. The survey or equivalent may be conducted institution-wide or may be done by individual departments as long as all departments are covered by a survey. The institution has a mechanism in place to address issues raised by the evaluation.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Staff Professional Development in Sustainability

Criteria

Institution makes available training and/or other professional development opportunities in sustainability to all staff at least once per year.

Separate training opportunities for each department would count for this credit, as long as each staff member has an opportunity to learn about sustainability at least once per year.

It is not necessary that each staff member attend such trainings; the credit is based on making training available to all staff.

This credit applies to staff members only; it does not include faculty members.

The following training opportunities are not sufficient for this credit:

- Specialized training for a small group of staff
- The opportunity to participate in an institutional sustainability committee or group

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Sustainability in New Employee Orientation

Criteria

Institution covers sustainability topics in new employee orientation and/or in outreach and guidance materials distributed to new employees, including faculty and staff.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Employee Sustainability Educators Program

Criteria

Institution administers or oversees an ongoing faculty/staff peer-to-peer sustainability outreach and education program. In the program, employee sustainability educators are formally designated and receive formal training or participate in an institution-sponsored orientation. The institution offers financial or other support to the program.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Childcare

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Employee Wellness Program

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Socially Responsible Retirement Plan

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Investment

This subcategory seeks to recognize institutions that make investment decisions that promote sustainability. Most institutions invest some of their assets in order to generate income. Together, colleges and universities invest hundreds of billions of dollars. Schools with transparent and democratic investment processes promote accountability and engagement by the campus and community. Furthermore, institutions can support sustainability by investing in companies and funds that, in addition to providing a strong rate of return, are committed to social and environmental responsibility. Investing in these industries also supports the development of sustainable products and services. Finally, campuses can engage with the businesses in which they are invested in order to promote sustainable practices.

Throughout this subcategory, the term “sustainable investment” is inclusive of socially responsible, environmentally responsible, ethical, impact, and mission-related investment.

<table>

</tbody>
</table>
Committee on Investor Responsibility

Criteria

Institution has a formally established and active CIR or similar body that makes recommendations to the Board of Trustees on socially and environmentally responsible investment opportunities across asset classes, including proxy voting. The body has multi-stakeholder representation, which means its membership includes faculty, staff, and students and may include alumni, trustees, and/or other parties.

Institutions for which investments are handled by the university system and/or a separate foundation of the institution should report on the investment policies and activities of those entities.

A general committee that oversees the institution's investments does not count for this credit unless social and environmental responsibility is an explicit part of its mission and/or agenda.

This credit applies to institutions with endowments of US $1 million or larger. Institutions with endowments totaling less than US $1 million may choose to omit this credit.

"---" indicates that no data was submitted for this field

Does the institution have a committee on investor responsibility or similar body that meets the criteria for this credit? :

No

The charter or mission statement of the CIR or other body, which reflects social and environmental concerns, or a brief description of how the CIR is tasked to address social and environmental concerns :

---

Members of the CIR, including affiliations :

---

Recent examples (within the past 3 years) of CIR actions :

---

The website URL where information about the committee is available :

---
Shareholder Advocacy

Criteria

There are two possible approaches to earning this credit.

1) Institution filed or co-filed one or more shareholder resolutions that address sustainability or submitted one or more letters about social or environmental responsibility to a company in which it holds investments, during the previous three years.

and/or

2) Institution has conducted a negative screening of its entire investment pool within the last three years. This could take the form of prohibiting investment in an industry (e.g. tobacco or weapons manufacturing) or participating in a divestment effort (e.g. companies operating in South Africa during apartheid). The negative screen includes selling all but $2,000 or less of the affected direct holdings and writing a letter to all fund managers encouraging them to remove affected holdings as well.

Institutions for which investments are handled by the university system and/or a separate foundation of the institution should report on the shareholder advocacy activities of those entities.

"---" indicates that no data was submitted for this field

Has the institution filed or co-filed one or more shareholder resolutions that address sustainability during the past three years? :

---

Has the institution submitted one or more letters about social or environmental responsibility to a company in which it holds investments during the previous three years? :

---

Has the institution conducted a negative screening of its entire investment pool within the last three years? :

---

A brief description of how the institution (or its foundation) has engaged in shareholder advocacy that promotes sustainability during the previous 3 years. :

---

The website URL where information about the negative screen, divestment effort, and/or direct engagement with companies in which the institution holds investments is available :

---
Positive Sustainability Investments

Criteria

Institution invests in any of the following:

- Sustainable industries, such as renewable energy or sustainable forestry
- Businesses selected for exemplary sustainability performances
- Sustainability investment funds, such as a renewable energy investment fund
- Community development financial institutions (CDFI)
- Socially responsible mutual funds with positive screens.

Investment in a socially responsible mutual fund with only negative screens (i.e. one that excludes egregious offenders or certain industries, such as tobacco or weapons manufacturing) does not count for this credit.

Institutions for which investments are handled by the university system and/or a separate foundation of the institution should report on the investment policies and activities of those entities.

"---" indicates that no data was submitted for this field

Total value of the investment pool :
---

Value of holdings in sustainable industries, such as renewable energy or sustainable forestry :
---

Value of holdings in businesses selected for exemplary sustainability performances :
---

Value of holdings in sustainability investment funds, such as a renewable energy investment fund :

Investment Disclosure

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Public Engagement

This subcategory seeks to recognize institutions that give back to their communities through community service, engagement, and partnerships. Volunteerism and the sense of compassion that community service helps develop are fundamental to achieving sustainability. From tutoring children to removing invasive species to volunteering at a food bank, students, faculty, and staff can make tangible contributions that address sustainability challenges through community service. Community engagement can help students develop leadership skills while deepening their understandings of practical, real-world problems. Institutions can contribute to their communities by harnessing their financial and academic resources to address community needs. For example, faculty research and courses can focus on how to address community problems. In addition, colleges and universities can offer incentives for their graduates to pursue careers that fill community needs, and schools can use their prominence to advocate for sustainability outside of their institutions.

Sustainability in Continuing Education

Responsible Party

Jonathan Hiskes
Senior Marketing Communications Coordinator
Marketing & Media

Criteria

Part 1

Institution offers continuing education courses that are focused on or related to sustainability.

Courses that can be taken for academic credit are not included in this credit. They are covered by the Curriculum subcategory.

Part 2

Institution has a sustainability-related certificate program through its continuing education or extension department.

"---" indicates that no data was submitted for this field

Does the institution offer continuing education courses that are focused on or related to sustainability? : Yes

Number of sustainability continuing education courses offered :
5

Total number of continuing education courses offered :
50

Does the institution have a sustainability-related certificate program through its continuing education or extension department? :
Yes

A brief description of the certificate program :

The first permaculture program of its kind in the nation, the Certificate in Holistic Landscape Design is a valuable training opportunity for those who want to build upon their knowledge of medicinal and edible plants and apply that expertise to the development of sustainable landscapes.

Grounded in the philosophy of working with nature rather than against it, the landscape design program engages students through a hands on curriculum. Permaculture courses such as Soil Ecology, Biodynamic Agriculture, and Medicinal and Edible Plants in the Landscape support the core objectives of graduating students who:
Year the certificate program was created:
2010

The website URL where information about sustainability in continuing education courses is available:
http://www.bastyr.edu/academics/areas-study/certificate-holistic-landscape-design
Community Service Participation

Criteria

Institution engages its student body in community service, as measured by the percentage of students who participate in community service.

Institutions may exclude non-credit, continuing education, and/or part-time students from this credit.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Community Service Hours

Criteria

Institution engages students in community service, as measured by average hours contributed per full-time student per year.

Institutions may exclude non-credit, continuing education, and/or part-time students from this credit.

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Sustainability Policy Advocacy

Criteria

Institution advocates for federal, state, or local public policies that support campus sustainability or that otherwise advance sustainability.

The policy advocacy must be done by the institution, not by students or a student group.

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
Trademark Licensing

Criteria

Part 1

Institution is a member of the Fair Labor Association or Worker Rights Consortium.

Part 2

Institution has signed on to participate in the Designated Suppliers Program.

This credit was marked as Not Pursuing so Reporting Fields will not be displayed.
Graduation Pledge

Responsible Party
Gary Nevuis
Facilities Manager
Facilities

"---" indicates that no data was submitted for this field

Does the institution administer a graduation pledge through which students pledge to consider social and environmental responsibility in future job and other decisions? :

<td>Innovation 4</td>
<td></td>
</tr>
</tbody>
</table>
Innovation 1

Criteria

1) Innovation credits are reserved for new, extraordinary, unique, groundbreaking, or uncommon outcomes, policies, and practices that greatly exceed the highest criterion of an existing STARS credit or are not covered by an existing STARS credit.

2) In general, innovation credits should have roughly similar impacts or be on the same scale as Tier One credits.

3) The innovative practice, policy, program, or outcome should have occurred within the past three years.

4) The innovative practice or program has to be something that the institution has already done; planned activities do not count.

5) An institution can only claim a particular activity as an innovation credit once. When re-submitting for a STARS rating, an innovation credit that the institution submitted previously cannot be re-submitted.

6) Practices, policies, and programs that were once considered innovative but are now widely adopted (e.g. being the first institution to enact a policy 20 years ago that is now common) may not be claimed as innovation credits.

7) Multiple activities or practices whose sum is innovative can be considered for an innovation credit as long as those activities or practices are related. For example, three innovative waste reduction programs in research laboratories could be listed together under a single innovation credit for Greening Laboratories. Listing a series of unrelated accomplishments or events under a single innovation credit is not accepted.

8) While the practices that led to receiving an award may be appropriate for an innovation credit, winning awards and/or high sustainability rankings in other assessments is not, in and of itself, grounds for an innovation credit.

9) Outcomes, policies, and practices that are innovative for the institution’s region or school type are eligible for innovation credits.

10) When the innovation is part of a partnership, the summary provided must clearly describe the institution’s role in the innovation.

This credit was marked as **Not Pursuing** so Reporting Fields will not be displayed.
**Innovation 2**

**Criteria**

1) Innovation credits are reserved for new, extraordinary, unique, groundbreaking, or uncommon outcomes, policies, and practices that greatly exceed the highest criterion of an existing STARS credit or are not covered by an existing STARS credit.

2) In general, innovation credits should have roughly similar impacts or be on the same scale as Tier One credits.

3) The innovative practice, policy, program, or outcome should have occurred within the past three years.

4) The innovative practice or program has to be something that the institution has already done; planned activities do not count.

5) An institution can only claim a particular activity as an innovation credit once. When re-submitting for a STARS rating, an innovation credit that the institution submitted previously cannot be re-submitted.

6) Practices, policies, and programs that were once considered innovative but are now widely adopted (e.g. being the first institution to enact a policy 20 years ago that is now common) may not be claimed as innovation credits.

7) Multiple activities or practices whose sum is innovative can be considered for an innovation credit as long as those activities or practices are related.
